

# Graduate Structural Engineer

## Responsibilities:

Keister Webb Structural Engineers LLC seeks well-prepared graduates of top engineering schools to start and build their careers with our firm.

As a graduate engineer, you will participate in project design teams for architectural projects of all types, including commercial, healthcare, education, and public assembly buildings.

A sound technical background and enthusiasm for the challenges of designing great structures, great client service, and a proactive spirit are required. Experience with Building Information Modeling (BIM) is a plus.

## Minimum Qualifications:

- Bachelor of civil engineering with emphasis in Structures
- EIT
- Candidates must be proactive, have strong organizational skills, excellent written and verbal communication skills, and work well with a team

## Overview:

Keister Webb Structural Engineers LLC (K | W) is a Florida-based company of structural engineers, located in Jacksonville. K | W was established in 1961 by Haley Keister and has been serving Florida and the Southeast for the past 61 years. With Jacksonville's rapid growth, K | W is also growing to keep pace with its home city. The U.S. News and World Report recently ranked Jacksonville as the 22nd best places to live in the U.S. in 2021-2022 (<https://realestate.usnews.com/real-estate/slideshows/25-best-places-to-live-in-the-us?slide=5>). So, join our team and grow your career with a highly respected company with talented engineers in desirable location.

**K | W is an equal employment opportunity employer and provides equal employment opportunities (including offering competitive compensation and benefit packages) to all employees and applicants for employment and prohibits discrimination and harassment of any type without regard to any characteristic protected by federal, state or local laws.**
